Our vision

A thriving
passionate netball
community on
the Central Coast

Our values

- Care
- Commitment
- Honesty

During 2017 Central Coast Heart continued to build on the foundations put in place during its inaugural Premier League season.

Central Coast Heart has remained true to its vision by engaging the local community about the possibilities of netball.

The 2017 season was launched with the first ever Premier League exhibition match – an exciting event including entertainment, a celebrity challenge and two high quality games of netball – in front of 400 appreciative local fans.

Skills and coaching clinics were once again conducted at venues across the region, along with twilight competitions that introduced 143 new players to the game during the past twelve months.

A team of dedicated volunteers continues to work hard in the background for the region's netball community reflecting Central Coast Heart's values of care, commitment and honesty.
